Mrs. Mary A. Cochran Wills \$20,000 For New Library Building at Brown County's Capital.

Council Unable To Make Budget and Tax Levy Monday Evening Because of Shortage.

At City Council meeting Monday evening Chairman Smith of the Ways and Means Committee announced that after juggling figures for the greater part of the afternoon the Committee had been unable to find how they could raise the money necessary to meet the expenses of the city government and the city schools on the assessment returned by the Board of Equalization at the present tax levy. He asked for further time and that the Mayor name a committee to meet with the Board of Education to see if they could not get together on some plan for the Board of Education to reduce its running expenses for the year. Mayor Russell appointed the Ways and Means Committee which will meet with the heads of the city schools this evening.

The ordinance creating a Curb Market and setting apart both sides of Market street from Second to Third on Tuesdays, Thursdays and Saturdays, was offered and adopted.

Another ordinance extending the Fire Zone to Kirk avenue in the west and Bridge street in the east was offered and adopted.

Councilman Davis announced that the city was receiving no revenue from the ferrage right and asked that an ordinance be drawn fixing a franchise tax of this right. On unanimous vote of Council it was ordered that the Laws and Ordinance committee prepare and offer such an ordinance.

The Police committee recommended that the vacation period of the city policemen be extended five days giving them 15 days with pay instead of 10 as in the past. On a vote Council divided equally and Mayor Russell cast the deciding vote favoring the extension of the time.

Eight emergency bonds of \$500 each were ordered issued and sold to provide funds for the current expenses of the city.

Council then adjourned to meet at the call of the Mayor to fix the tax levy and adopt a financial budget for the new fiscal year.

Why so Particular?

asked a woman recently when we were examining her eyes. "Because failure to be particular and careful may mean more eye-strain and more discomfort instead of the relief and easy vision that result from wearing the right glasses rightly made and fitted." We have the latest instruments for doing careful, skillful, particular work and the disposition to do it.

MISSING GIRL WAS WITH HER FATHER.

Mrs. Carl Colburn, of Chester street, aunt of Miss Lena Burns, who has been missing from her home here for the past two weeks, has been advised by wire that her niece is in Washington City at the home of her father. This message is quite a relief to local relatives and friends who have been considerably troubled about the young lady’s sudden and mysterious disappearance here on Memorial Day.

MANY ATTEND COLORED CLOSING EXERCISES.

There was a large crowd at the court house Monday evening to witness the play and other exercises given by the graduates of the Colored Eighth Grade. The entertainment was very pleasing and those who were members of the cast in the little play deserve much credit for the manner in which they presented it.

PRACTICE TONIGHT.

Children’s Day practice at Third Street M. E. church this evening at 6:30. Every one having part must be on hand promptly at the hour named. Parents of the children are urged to see that the children are there. Much will depend upon this practice as to the success of the program.

PUBLIC LIBRARY REPORT.

During the month of May there were 528 visitors at the Public Library and 1113 volumes were taken out according to the report of the Librarian made this morning.

CLASS DAY PROGRAM IS RENDERED THIS AFTERNOON

One of the Most Interesting Programs Of Commencement Week Draws Good Sized Crowd.

The class day program which was rendered in the High School auditorium this afternoon is always looked upon as one of the most interesting programs of Commencement Week and this year it was just as interesting as ever before.

The entire program was entirely in the hands of the Seniors. The class song sung by members of the graduating class was written by Misses Thelma Stahl, Marie Duzan and Eunice Knox while the class poem was by Miss Mary Downing.

The Farewell Address was delivered by President William Farley of the Senior class and President Robert Power of the Junior Class, responded. Mr. Farley handed over to the Juniors all of the grave responsibilities the Seniors were laying down and Mr. Power, on behalf of his fellow classmates, accepted them.

The Class History was read by Miss Marie Duzan and the Prophecy by Miss Eunice Knox. As usual they brought out much fun and many hearty laughs. Miss Carolyn Soward read the class Will while Miss Mary Soward and Mr. Harry Sammons were the class gittorians.

A piano solo by Miss Chloe McDowell was greatly enjoyed.

The developments of the last 24 hours have been bad for Senator Johnson of California. The votes from Nebraska, Michigan and North Dakota, which he claimed as his very own and subject only to his own release, will not remain steadfast. The delegates from those States do not coincide with Senator Johnson in his opinion; they will remain with him only as long as they please. Some will desert quickly.

General Leonard Wood seemed to have profited most from the changing tides and some of the flatson has been salvaged by those operating in his behalf. They aver that Massachusetts will not go along with Governor Coolidge; that General Wood will have seven Massachusetts votes on the first ballot and later on as many as twenty. The unstable Johnson strength in Nebraska and in Michigan is claimed by Wood; likewise the support of the 17 Chicago delegates, controlled by Mayor “Bill” Thompson, who have deserted Lowden. Desertions from Lowden to Wood among Southern delegates also are reported. They advise also that the prognosticators and statisticians keep their eyes on Pennsylvania and New Jersey. The Sprout support in Pennsylvania, in spite of the serious consideration given to the governor as a possible compromise candidate, is not enthusiastic; and when the State breaks, it will divide substantially between Lowden and Wood.

ARRANGEMENTS FOR BIG 4th OF JULY CELEBRATION

Plans Are Now Being Made for Big Celebration at Beechwood Park On Fifth of July for Band.

Manager J. Barbour Russell, of the Maysville Boys’ Band, started today to lay plans for a big Fourth of July Celebration at Beechwood Park on Monday following the Nation’s Birthday.

His plans include fireworks, baseball games and other contests, dancing, band concerts and good speaking by prominent men.

Colonel Russell wired Governor Morrow at Chicago this morning asking him if he would speak here on that day and also asked him to extend an invitation to the nominee of the Chicago Convention to spend July 5th in Maysville and speak on that afternoon at the big celebration.

The purpose of this big celebration is to raise funds with which to purchase the band members’ new summer uniforms of white and Colonel Russell says he thinks he will be enabled to gather in quite a nice fund if Governor Morrow and the Republican candidate for President will agree to make the donation of their time to make a speech for the Maysville Boys’ Band.

Why the New Edison Phonograph is Best:

1. It is the only instrument that creates music.

2. Tone test with living artists—no difference between the voice of the singer and the voice of the machine.

3. By use of a turn table—with three leading talking machines, the New Edison only proves to re-create music while the others merely approximate the original selection. J7-21

One of his managers, an Oklahoma leader, today asserted that Lowden, in spite of predictions to the contrary, will have more votes on the first ballot than either of the other leading candidates.

ERNST AND COLVIN CHIEF SPEAKERS AT SETTLERS’ REUNION

Plans Are Taking Form for Annual Celebration of Nation’s Birth-day at Ruggles Camp Grounds, July 3rd.

President Bert C. Grigsby of the Old Settlers’ Association was in the city yesterday making plans for the annual reunion and picnic at Ruggles Camp Grounds on Saturday, July 3rd. The annual reunion of the Old Settlers’ has come to be the chief event in this section on the Nation’s birthday. Thousands attend every year. The attraction of the beautiful campgrounds, a chance to see a big crowd, to hear noted speakers and good music—this makes it a place that to attend one year means going every year. Many good musical organizations have held forth here in the past, but this year will be the climax—the Boys’ Band of our own town. Several prominent speakers will speak during the day, chief of whom are State Superintendent of Public Instruction Geo. Colvin, the Hon. R. P. Ernst, prominent candidate for United States Senator, and Hon. Taylor Luman, prominent attorney of Louisville. Major John Walsh has been engaged to decorate the tabernacle as never before for the occasion. Privileges will be in hands of reliable people who will see that all possible will be done for the enjoyment of the crowds. This year no admission charges will be made to old settlers above sixty-five years of age, nor to children under twelve.

Another event of importance for the day is the meeting of the Board of Directors of the campmeeting association. Final plans will be made for the campmeeting which follows on July 29th. Those who have cottages will want to come to look after them; those who wish to rent cottages are usually on hand to secure the same. There has been such a demand for cottages this year that but few will be left for rent on this day.

There may be other celebrations, but if you want to attend a real big patriotic celebration don’t fail to attend this one.

EYES ON U. S. TREASURY.

Washington, June 4. — "It is not necessary to sell the United States in order to get a lower exchange rate," declared Senator William E. Borah, of Idaho, in debate in the Senate on internal conditions in Europe. "I am thoroughly in favor of restoring the commercial and business relations between this country and Europe, but I oppose the surrender of a portion of the independence and the sovereignty of this government to the domination and control of a foreign tribunal. The great moving power behind the league of nations from the beginning has been international finance. If it were not for the great material resources and the Treasury of the United States all interest upon the part of Europe in having the United States join the league would cease. The league is a thoroughly war-organized machine. The reason why they are interested in having us join at this time is not the ideal reason once promulgated, that it would prevent war, but because the Treasury of the United States and the taxpayers of the United States are essential to the prosecution of war in Europe and to the maintenance of the imperialistic schemes of European nations."

OPPOSES WILSON'S DELAY.

The arbitrary position taken by the President in regard to the terms of the peace treaty with Germany prevented the making of peace in the usual way, which is by treaty. It therefore became the imperative duty of Congress to declare officially that war is at an end," stated Representative Stephen G. Porter, chairman of the Committee on Foreign Affairs, in the House of Representatives recently. "No reasonable mind can escape the conclusion that the war is long since terminated, and that our country is insistently demanding that the shadow which this technical state of war casts upon the rights and liberties of the American people shall be promptly removed. Congress, having exercised its powers to declare war, surely has the right to exercise the same power and vacate its official acts and thus restore the nation to a state of peace."

IN THE DAY'S NEWS.

Moving pictures of an aeroplane flying over the famous Diamond Head and Waikiki Beach in fair Hawaii, with Mildred Leo Clemens as the daring lady in the "shot" machine, will be a feature of "A Night in Hawaii," on the Coit-Alber Chautauq circuit this season. The film was made in April of this year.

The movie thriller, however, is but one of a dozen features of the evening. In the first place, precluding the lecture of Miss Clemens on life and customs of the Islands, will be the appearance of her own native Hawaiian company, six of the finest vocalists and instrumentalists in all Hawaii. These musicians were selected personally by Miss Clemens. The company sailed from Honolulu on the 19th of May, and Miss Clemens, who is an authority on Hawaii and its people, frankly states she has the finest company which has ever left the islands.

The names are well known in both native and American musical circles of the Islands. The sextette consists of Kneule Poine Ole, Ane Hila, Keoni and Kewini Panui, Kamaki Pahu and Kahala Pahu, three ladies and three gentlemen.

Miss Clemens, who is a cousin of Mark Twain, is a lecturer of considerable fame. She has assembled a wonderful collection of photographs of Hawaii and its people, which will be shown on the screen, in addition to the movies taken about Waikiki Beach and over Diamond Head.

Stenographers, clerks, cashiers, and other women employees of one of the big packing companies in St. Louis have organized a sewing club in an effort to combat the high cost of clothing by making their own summer and vacation outfits.

SIX OF HAWAII'S FINEST MUSICIANS COMING HERE FROM ISLANDS TO PRESERVE MUSICAL IDEALS OF NATIVE LAND

Hand-Picked Company of Native Musicians in the Islands Chosen for Long Tour in United States and Canada During Present Summer—Sailed May 19th from Honolulu with Mildred Leo Clemens

Mildred Leo Clemens and Her Native Hawaiians on the Famous Waikiki Beach, April, 1920

Six of the finest native musicians in all the Hawaiian Islands sailed from Honolulu on May 19th on the steamship "Mau," to fill their first American engagement. They will appear on the Coit Alber Premier circuit in Indiana, Michigan, Kentucky, Ohio. The company is a hand-picked group of unspoiled native instrumentalists and vocalists, all of whom are prominent in musical circles of the Islands. They were chosen for the special tour by Mildred Leo Clemens, cousin of Mark Twain, who visited the Islands early this year, and following the instructions from the Coit-Alber offices, engaged the finest musicians available. A cablegram from Miss Clemens on the day of departure stated that her company will be the finest organization which has ever toured America. They are real Hawaiians and real musicians.

Prominent Hawaiian Musicians. The personnel of the company consists of Kulei Polina Ole, generally considered the finest steel guitar player in the Islands, and one of the few women who have been able to master this difficult method of playing; Ane Hilla, a true Hawaiian type, who sings, plays and features interpretations of the old Hawaiian legends, particularly the "Uhulii" or warrior's dance, and the "Puili," or sacred Bamboo dance; Keoni and Kewini Panui, versatile brothers, masters of guitar, ukulele, steel guitar and mandolin, and vocalists of considerable fame in native circles at Honolulu; Kamaki Pahu, the thorough musician, leader of the Hawaiian Glee Club at Honolulu; and, lastly, Kahale Pahu whose voice was a favorite in all Hawaii. Kahale Pahu was so loist with Prince Kuhio, Hawaii's Pacific Paradise."

RAILROAD STRIKES AND "JUSTICE."

The first purpose of the framers of the American Constitution as stated in the Preamble, was "to form a more perfect union," and the second "to establish justice." The more perfect union was necessary in order that the Government might continue to exist. The establishment of justice was second in importance only to the union itself. In the establishment of justice to the end to be accomplished is the protection of the many from the aggressions of the few and that is exactly the purpose of the proposed anti-strike railroad law. There can be no justice as between railroad employees and the public generally if the employees are to exercise the power to force payment of wages according to the standard which they fix under the threat of interruption of service. Justice does not exist where one of the parties to a bargain has the power to fix the terms of the bargain without the other party having any voice in the matter.

Since the railroads have been placed under Government regulation and rates are established by a government tribunal, the question of wages is no longer one between the employee and the corporation. In the last analysis the public pays the bill. The public, therefore, has a right to a voice in saying what rate of wages shall be paid. Such is the purpose of the proposed anti-strike railroad bill. Under that measure a duly constituted and authorized government tribunal would take testimony and render a decision regarding railroad wages just as the Interstate Commerce Commission takes testimony and renders decisions regarding rates to be charged by railroad companies for transportation of passengers or freight. The anti-strike law would establish justice, as nearly as justice can be attained.

THROWING MONEY AWAY.

The charge that the War Risk Bureau has made overpayments aggregating \$28,000,000 and possibly as much as \$100,000,000, is one that will be readily credited by men who were formerly in the service and who have observed the manner in which the business of the War Risk Bureau was conducted. There have been numerous instances which have come to the attention of men who were in the service in which the Bureau insisted on making payments that were not due. Many a soldier, or his family, has sent back money that was paid through carelessness on the part of the War Risk Bureau. The Bureau insisted upon making payments on the assumption that certain soldiers were dead, whereas they were still alive. The fact of the matter seems to be that because politics figured so largely in the organization of the supervisory branches of the Bureau there was inefficiency in practically all of its work. Some measure of inaccuracy must be expected, but overpayments to the extent of \$28,000,000 would seem to be entirely unjustifiable.

GETTING BACK TO NORMAL.

It is reported that the railroads are in the market for 1,500 locomotives, and thousands of freight cars, orders for many of which already have been placed. With the gradual removal of the blight left by Government ownership, transportation facilities and services will return to normal once more, and do its part in lowering the cost of living.
